Autism, ADD, ADHD: 2014

“What’s Really Working?”

Featuring Amy Derksen, ND

With bonus lecture by Dietrich Klinghardt, MD. PHD

“Lyme and Parasite Treatment for Autism”

Amy Derksen, ND presents the latest Autism Treatment guidelines that are effective today. Trained by Dr. Klinghardt as his first naturopathic assistant, she has chosen to specialize in the treatment of Autism and dedicates her practice to Dr. Klinghardt's 5 level system of treatment using Autonomic Response Testing for clear patient assessments resulting in successful individualized treatment plans. As a Klinghardt Academy Instructor, DANs practitioner, and now following the MAPS program, Dr. Derksen has taken Autism treatment to an individual approach, making a positive difference in the lives of many children and parents searching for options.

In this lecture, Dr. Derksen guides us to the starting point of treatment through the myriad of options, cleaning up the environment, the best diet, Lab work, organ supportive protocols, the vaccine issues, Healing the gut, parasites, Genetic testing, mold sensitivity, stimming, speech issues, tonsils, biofilm elimination, prescriptions, & amazing tips and tricks only heard here. A must for all parents as one in 5 children today are born in the spectrum. We are all in this together to do our part for the future of our children and our next generation. We highly recommend the EMR DVD as a sequel to this knowledge.
